Makassar, South Sulawesi, 90254

Industrial Engineering graduate from Hasanuddin University with experience in data analysis, quality management, operational support, and project coordination. Skilled in statistical analysis, data processing, problem-solving, and continuous improvement, supported by experience in industry, laboratory coordination, research, and organizational projects. Eager to learn and build a career in Supply Chain, Inventory Management, Operations, Data Analytics, Industrial Engineering, and Process Improvement.

Education

Hasanuddin University | Makassar, south sulawesi

2022-2026

Bachelor of Engineering in Industrial Engineering

- GPA : 3.69/4.00
- Relevant areas: Data Analytics, Statistics, Supply Chain Management, Production Planning, Lean Six SIGMA, Quality Management, Production Management, and Operations Research

Universiti Sains Malaysia (USM) | Penang, Malaysia

March-August 2026

Student Exchange Program

- Relevant areas: Business Statistics, Production Management, Data Analytics, and Environmental Management

Experience

PT Industri Kapal Indonesia (PERSERO) | Makassar, south sulawesi

February-July 2025

Occupational Health, Safety, and Environment (HSE) Intern

- Managed HSE data, incident records, risk assessments, and audit documentation to support safety evaluation and continuous improvement.
- Conducted research on HSE management effectiveness using regression analysis, FMEA, and Hierarchy of Controls to identify key risks and recommend improvement.

Statistical And Quality Management Laboratory | Makassar, south sulawesi

Oktober 2023-June 2025

Lab Practicum Coordinator & Assistant Coordinator

- Taught and guided students in statistical analysis and quality management, including data collecting, processing, and interpretation using EXCEL, SPSS, SmartPLS, and Minitab for practicum objectives.
- Co-authored a published research paper on quality control using Six Sigma DMAIC, FTA, FMEA, Kaizen, and Cost of Quality analysis to identify production defects and develop continuous improvement recommendations.
- Coordinated Industrial Engineering laboratory practicums for approximately 90 students, ensuring effective session execution, procedural compliance, and providing direct academic guidance throughout the learning process.

Persatuan Insinyur Indonesia (PII) | Makassar, south sulawesi

December 2023-December 2024

Data Administration and event operations

- Managed participant data entry, verification, and event documentation for 800+ engineers across multiple professional engineer.
- Produced certificates, digital publications, and supporting event materials while coordinating administrative and communication needs.
- Served as an online session host for engineer candidates presenting their professional projects, managing presentation flow and assisting participants throughout each session.

SICLUS International Competition – Renewable Energy | Makassar

May-September 2024

Marketing, Creative & Event operation

- Analyzed target audiences and event promotion needs to support content and digital marketing strategies for an international renewable energy competition.
- Developed and managed promotional content using Figma, Adobe After Effects, and CapCut,

supporting event branding, participant engagement, and marketing communication across digital platforms.

Do Well Do Good Future Leaders Program (SHARE) | Makassar

September 2023-Oktober 2024

Marketing & Communication associate

- Participated in intensive leadership training, research, and project-based learning focused on problem-solving, collaboration, and practical business application.
- Identified target audience segments and developed digital communication content to support marketing initiatives, audience engagement, and program visibility.

Himpunan Mahasiswa Teknik Industri FT-UH | Makassar

July 2023-February 2025

Communication & Information Staff

- Conducted target audience analysis and supported promotional strategy for **CONSTRAIN** (Competition of Industrial Engineering), a national-level business case competition involving university students across Indonesia.
- Developed digital campaigns and promotional materials using Adobe After Effects, CapCut, and Adobe Illustrator, while preparing partnership proposals and communication materials for prospective corporate partners.
- Managed the Industrial Podcast project by identifying relevant industry topics, inviting professional speakers, coordinating recording sessions, and editing and publishing podcast content across social media platforms.

Project Research

International Journal for Quality Research, 2026

Sentiment Analysis Using Deep Learning (LSTM and BiLSTM) and Topic Modeling Based on DINESERV Dimensions to Improve Service Quality in a Quick-Service Restaurant.

- Collected and analyzed 7,450 meta data reviews using Python to investigate customer sentiment and service-quality issues in a quick-service restaurant..
- Developed LSTM and BiLSTM deep-learning models with trainable word embeddings then achieved 96.83% accuracy, 98.90% precision, 97.40% recall, and 98.15% F1-score using the BiLSTM model for sentiment classification.
- Applied LDA topic modeling to negative reviews and mapped recurring complaints to the five DINESERV dimensions to identify service-quality improvement areas.

TALENTA Conference Series: Energy & Engineering, 2026

Pengendalian Kualitas Produk Tempe Menggunakan Metode Six Sigma DMAIC dan Analisis Biaya Kualitas di Pabrik Tempe XYZ Makassar.

- Analyzed 194,544 production units and 305 defective products across 30 production days to evaluate production quality and identify critical defect types.
- Applied Six Sigma DMAIC, Pareto analysis, P-Chart, DPMO, FTA, and FMEA to measure process performance, identify root causes, and prioritize improvement opportunities.
- Developed continuous improvement recommendations using Kaizen 5S and 5W+1H, supported by quality-cost analysis to address waste, rework, and other quality-related costs.

SKILLS

CERTIFICATIONS : | Data Analyst — Badan Nasional Sertifikasi Profesi (BNSP) | ENGLISH TOEFL (550) |

DATA & ANALYTICS: Microsoft Office (Word, Excel, PowerPoint) | Python | SQL | SPSS/Minitab | SmartPLS | Data Processing | Data Visualization | Machine Learning |

INDUSTRIAL ENGINEERING: | Quality Management | Business Analysis | Supply Chain Management | Six Sigma | Production Management | FMEA | HIRARC | Continuous Improvement | Process Improvement.

CREATIVE & COMMUNICATION: | CapCut | Figma | Canva | Adobe (Illustrator, After Effects, Photoshop)
